

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # EXPORTS FROM THE SEVERAL COUNTRIES

TO THE

## UNITED STATES.

---

The following statements, compiled in the Bureau of Statistics, Department of State, from consular returns, show the nature and value of the products declared for export to the United States at the consulates and commercial and consular agencies of the United States in the several countries.

The statements cover the calendar year 1892, unless when otherwise specified.

Though other Government publications show the exports from the several countries to the United States, this is the only one which mentions the districts within the several countries wherein the exports for the United States have their origin—wherein they are manufactured—for, although in some cases goods are “declared” in districts in which they are not produced (foreign goods in Liverpool and London, for instance), yet the rule is that goods are declared in the districts of production.

The statements are arranged according to continents, viz, Europe, America, Africa, Asia, Australasia, and Polynesia. The countries, according to continents, are alphabetically arranged, as are also the consulates in the several countries. The consular agencies are arranged under their respective consulates.

The analytical index will enable the reader to trace any product or manufacture to the several districts in which it originated, and to see, at a glance, the amount declared in the several districts.

All goods intended for export to the United States must be “declared” at the nearest American consulate or commercial or consular agency. The various forms of declarations are as follows:

*Declaration to be indorsed on the invoice and signed by the purchaser, or duly authorized agent of such purchaser, where merchandise has been actually purchased.*

I, ———, of ———, do solemnly and truly declare that I am the ——— of the merchandise in the within invoice mentioned and described; that the said invoice is in all respects correct and true, and was made at ———, whence said merchandise is to be exported to the United States; that said invoice contains a true and full statement of the time

D. EX.—I.

I

Recl. 3-2-93. E.R.

when, the place where, and the person from whom the same was purchased, and the actual cost thereof, and all charges thereon; that no discounts, bounties, or drawbacks are contained in said invoice but such as have been actually allowed thereon; that no different invoice of the merchandise mentioned in said invoice has been or will be furnished to anyone; and that the currency in which said invoice is made out is that which was actually paid for said merchandise. And I further declare that it is intended to make entry of said merchandise at the port of \_\_\_\_\_, in the United States of America.

*Declaration to be made by the seller on behalf of the purchaser where merchandise has been actually purchased.*

I, \_\_\_\_\_, of \_\_\_\_\_, in \_\_\_\_\_, do solemnly and truly declare that I am the seller and shipper of the merchandise in the annexed invoice mentioned and described, which was purchased from me by \_\_\_\_\_, of \_\_\_\_\_, in the United States; that the said invoice was made at \_\_\_\_\_, in the consular district of \_\_\_\_\_, whence the said merchandise is to be exported to the United States, and that it is in all respects true; that it contains a true and full statement of the time when, the place where, and the person from whom the merchandise therein mentioned was purchased, and the actual price paid, or to be paid, to me by the purchaser, to whom I have sold the same in the ordinary course of trade, and for whom I now act in producing this invoice, together with a true statement of the quantity thereof, and of all charges thereon; that no discounts, bounties, or drawbacks are contained in the said invoice but such as have been actually allowed thereon; that the currency in which the said invoice is made out is the currency which was actually paid, or is to be paid, for the said merchandise; and that no different invoice thereof has been or will be furnished to anyone.

I further declare that it is intended to make entry of the merchandise mentioned in the said invoice at the port of \_\_\_\_\_, in the United States of America.

Dated at \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, 18—.

*Declaration to be indorsed on the invoice and signed by the manufacturer or owner, or duly authorised agent of such manufacturer or owner, where merchandise has been obtained otherwise than by purchase.*

I, \_\_\_\_\_, of \_\_\_\_\_, do solemnly and truly declare that I am the \_\_\_\_\_ of the merchandise in the within invoice mentioned and described; that the said invoice is in all respects correct and true, and was made at \_\_\_\_\_, whence said merchandise is to be exported to the United States; that said invoice contains the actual market value or wholesale price of the said merchandise at the date hereof in the principal markets of \_\_\_\_\_; that said actual market value is the price at which the merchandise described in the invoice is freely offered for sale to all purchasers in said markets, and that it is the price which I would have received, and was willing to receive, for such merchandise sold in the ordinary course of trade in the usual wholesale quantities, and that it includes all charges thereon and the actual quantity thereof, and that no different invoice of the merchandise mentioned in the said invoice has been or will be furnished to anyone. And I further declare that it is intended to make entry of said merchandise at the port of \_\_\_\_\_, in the United States of America.
